Dear colleagues and friends,

It gives me great pleasure and honor to hereby invite you to join the IACD 2020 in Dresden!

Dresden offers attractions in great variety and combines three aspects which complement one another – notable art treasure, architectural sights and a charming landscape.

The range of art and culture Dresden has in store for its visitors includes some of the world’s greatest cultural achievements as well as the bustling, creative life in the urban districts, together with a fascinating »alternative scene«. See for yourself!

A trip to Dresden is always a great experience. Learn about the many faces of the city and discover her secrets.

Welcome to the city of culture and art on the river Elbe, welcome to the »City of Science« in the centre of Silicon Saxony!

Sincerely yours

Uwe Wollina
Congress President IACD 2020
